# Detected findings

No notable findings — this vehicle appears to be in good standing

| CRITICAL | HIGH | MINOR | TOTAL       |
|----------|------|-------|-------------|
| 0        | 0    | 0     | 0           |
| None     | None | None  | No findings |

## No findings detected

This vehicle has no major issues based on the data we checked. Always inspect the vehicle in person before purchase.

# About this report

Data sources, accuracy, and validity

## Data sources

This report compiles data from the DVLA (Driver and Vehicle Licensing Agency), the DVSA MOT history service, and licensed third-party data providers including stolen vehicle databases (Police PNC), insurance write-off registries (MIAFTR), and finance registries (Experian HPI).

## Accuracy

CheapRegCheck makes every effort to ensure the data is accurate at the time of generation. We rely on third-party data and cannot guarantee its completeness. This report is for informational purposes only and should not be the sole basis for purchasing decisions.

## Liability

CheapRegCheck and its operators are not liable for any decision made based on this report. We strongly recommend an independent inspection by a qualified mechanic before purchasing any used vehicle. Findings derived from MOT advisories are heuristic and based on text pattern matching; they are not professional mechanical assessments.

## Validity

The information is accurate as of the generation date shown on the cover. Vehicle status (tax, MOT, finance, ownership) can change at any time. For time-sensitive decisions, generate a fresh report. CheapRegCheck is not affiliated with DVLA or DVSA.
